

Discussion & Resource Kit

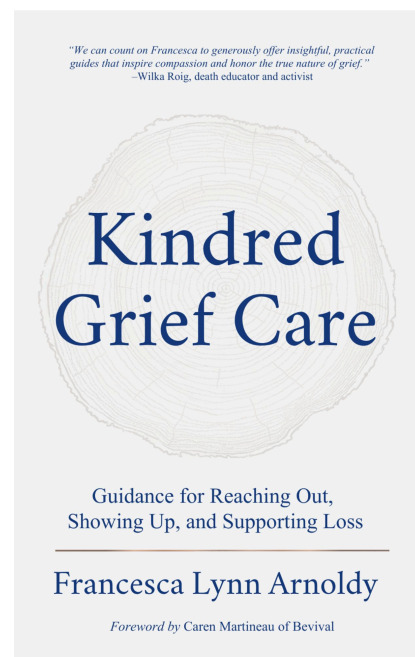

Kindred Grief Care

Organizations that rely on skillful volunteers—whether in hospice, aging services, or community care—are built on relationships. Volunteers become trusted companions to those navigating illness, aging, and life transitions.

Yet when loss and grief come into the picture, people are sometimes unsure of how to respond. Those who are grieving may feel overwhelmed and isolated, and those offering care may not know what to say or do. With the right support and guidance, these moments can become opportunities for deeper connection rather than uncertainty.

Kindred Grief Care is a guidebook for community bereavement support, informed by direct work, teaching, and research.

It offers grounded, useful information for understanding loss and care approaches centered on presence and compassion.

Overview

The Discussion & Resource Kit provides everything needed to host meaningful discussions and build a resource area for ongoing use. Ideal for continuing education for volunteers and also staff—developing your organization into an even stronger care web.

This toolkit will help team members draw together to deepen their knowledge as well as grow their confidence and skills.

Kit Contents

1. A comprehensive book discussion guide, including event preparation tips, invitational language, facilitation support strategies, and reflective discussion prompts.
2. A bulk order of *Kindred Grief Care* paperbacks and/or eBooks (customized versions available).
3. Master copies of handouts: Compassionate Condolences, Practical Offerings, and Grief Visits.
4. Optional: A virtual 1-hour workshop (“The Language and Listening of Loss”) with the author to deepen learning.
